

# Meet the moment with Cisco Webex Legislate

Here are the top 5 reasons to consider Cisco Webex Legislate, the industry-first and purpose-built remote legislative solution for your next hearing or vote.

1

## Designed specifically for legislatures

A complete collaboration solution designed with secure voting technology; session and timer management tools; and roles like digital clerks, legislators, press and public, and administrators.

## Preserve tradition and process

Customize right out of the box by configuring organization names, logos, colors, users, groups, actions, and more to maintain continuity, tradition, and process.

2

## Include everyone

Built-in features like live interpretation and closed captioning ensure that everyone can participate.

4

## Stay secure and in control

Video lobby controls and secure participant verification allow you to remain confident that your organization is protected throughout any session.

5

## Make it better than being there

Replicate live processes with private sidebar meetings that can take place during a proceeding.

## Prepare your legislature for an evolving future

Navigate modern challenges, maintain tradition, and help your legislature move forward with Cisco Webex Legislate.
